Project Title: Lower Berryessa Creek Project, Program Environmental Impact Report		
Project Location: The project limits extend 8,700 feet through the City of Milpitas (see attached Figure 1), from the creek confluence with Lower Penitencia Creek upstream to Calaveras Boulevard. The Program also includes modifications to approximately 4,000 linear feet of Tularcitos Creek, 3,000 linear feet of lower Calera Creek, two upstream reaches of Calera Creek (Upper Calera Creek Elements 1 and 2), and 4,500 linear feet of Lower Penitencia Creek. Both Tularcitos and Calera Creeks are tributaries to Lower Berryessa Creek, entering the creek approximately 0.2 miles and 1.4 miles, respectively, upstream of its confluence with Lower Penitencia Creek.		
Project Description: The Lower Berryessa Creek Project is divided into six program elements: (1) Lower Berryessa Creek element; (2) Lower Calera Creek element; (3) Upper Calera Creek element 1; (4) Upper Calera Creek element 2; (5) Tularcitos Creek element; and (6) Lower Penitencia Creek element. The Lower Berryessa Creek Project would include creek channel improvements that would result in the containment of flow in the channel with adequate freeboard requirements in Lower Berryessa, Calera, Tularcitos, and Lower Penitencia creeks. The improvements generally include raising creek levees, constructing floodwalls along existing creek levees, constructing an underground concrete box culvert, constructing a stormwater pump station, improving maintenance access, removing sediment and vegetation, and constructing floodplain.		

This is to advise that the Santa Clara Valley Water District has approved the above described project on December 13, 2011, and has made the following determinations regarding the above described project:

1. The project will, will not, have a significant effect on the environment.
2. An **Environmental Impact Report** was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were, were not made a condition of the approval of the project.
4. A statement of **Overriding Considerations** was, was not adopted for this project.
5. Findings were, were not made pursuant to the provision of CEQA.

This is to certify that the final Environmental Impact Report and responses and record of project approval is available to the General Public at:

Santa Clara Valley Water District
 5750 Almaden Expressway
 San Jose, CA 95118
