Dear Valley Water Directors,

Please DO NOT PROCEED FURTHER with plans to build the Pacheco dam. It is way too costly for the benefits may provide. It will also do environmental damage and create even more traffic problems on the winding 2 lane road from Gilroy to Casa de Fruta. We need to use more conservation measures instead of building this dam.

I live in South County and can see the negative impacts this project will cause. Please take heavily traveled Hwy. 152 east and visit the dam site to see for yourselves.
