

MEMORANDUM

FC 14 (02-08-19)

TO: Board of Directors

FROM: Nai Hsueh,
Board Chairperson

SUBJECT: Proposed Referral to the
Environmental Creek Cleanup
Committee to review current
Unhoused Related Agreements with
the County of Santa Clara and City of
San Jose

DATE: November 4, 2024

During the October 11, 2024, Unhouse People and Environment Summit, there was input given and commitments received that agencies within the county should work collaboratively together to address the unhoused living along the waterways in Santa Clara County.

To help identify proactive collaborative strategies, I request that the Board make an assignment to the Environmental Creek Cleanup Committee to review the current unhoused services agreements that Santa Clara Valley Water District has with the County of Santa Clara and the City of San Jose, to help identify proactive collaborative methods that can be pursued to collectively make meaningful progress with the unhoused living along the waterways in Santa Clara County.
