Valley Water invites you to a Public Hearing regarding Fiscal Year 2026/2027 Groundwater Production and Surface Water Charges.

Valley Water has prepared an annual report on the Protection and Augmentation of Water Supplies documenting financial and water supply information, which provides the basis for recommended groundwater production and surface water charges for fiscal year 2026/2027.

The report includes financial analyses of Valley Water's water utility system; supply and demand forecasts; future capital improvement, maintenance and operating requirements; and method to finance such requirements.

Valley Water will hold a Public Hearing to obtain public comments on the report, which will be available at the hearing.

Based upon findings and determinations made at the public hearing, including the results of the surface water protest procedure, Valley Water Board of Directors will decide whether or not groundwater production and surface water charges should be increased, and if so, to what level, in each charge zone or zones for the fiscal year beginning July 1, 2026.

This meeting is being held in accordance with the Brown Act. The public hearing will be held during multiple Board Meetings and are accessible for public in-person participation at the times, dates, and locations shown above, or by public virtual participation at the Zoom links above. Document(s) associated with this hearing are available for public inspection prior to the meeting in the Clerk of the Board's Office or online at www.valleywater.org and will be available at the meeting.
