Comment Form

The Sierra Club commends Valley Water and staff on the process to develop these plans. Aside from Pacheco Dam, these are laudable plans on paper. Our concern now is implementation. Therefore, we suggest that the projects identified in Watershed Master Plans be considered and discussed as part of the annual Capital Improvement Plan review. There should also be periodic review of the progress implementing these plans. Annual review is preferable, or at least every two years since these are 30-year plans. Therefore, we request that a review be scheduled on the Coyote Creek Watershed Plan (approved in March of 2022) as soon as possible.

Thank you for your consideration.
