Subject: Funding for Upper Guadalupe Flood Improvements

***** This email originated from outside of Valley Water. Do not click links or open attachments unless you recognize the sender and know the content is safe. *****

Dear Valley Water District Board Members,

I am writing to express my concern regarding recent rumors about potential plans to divert funding allocated for the Upper Guadalupe flood improvements. These improvements, particularly at the Lelong site and other key locations along the Guadalupe River, are crucial for the safety and well-being of our community.

The dedicated funding for these projects ensures that we can effectively manage flood risks, protect properties, and safeguard the lives of residents in the area. Diverting these funds could jeopardize the progress we have made and delay critical improvements that are necessary for our community's resilience against flooding.

I urge you to keep the funding for the Upper Guadalupe intact. These projects are vital for our community, and any diversion of funds could have serious consequences for our flood management efforts.

Thank you for your attention to this matter and for your continued commitment to the safety and well-being of our community.

Sincerely,

Ken Brown
