Re California Dept Water Resources presentation to Santa Clara Valley Water District on financial and environmental costs of the Bay/Delta water tunnel

To DWR and VWD

Do you know what the additional cost of the tunnel will be due to the interest on bonds that might/would be used to finance the tunnel ? Some guesses are that bond interest would be 100's of millions of dollars if not billions of dollars . It seems to the public that there' isn't a clear appreciation of this significant financing cost of the tunnel by either the California Dept of Water Resources or the Santa Clara Valley Water District.

Sincerely
Les Kishler
