Subject: Ricardo Nalawagan's case

To: Lilian Dennis <ldennis@valleywater.org>, HR SS-Cases <hr@signetjewelers.com>

Mr Nalawagan, asked me to call the news station in San Jose California and he was going to contact his lawyer. I put my advice to him because I really believe that it's for the better good to not to not to not show the incompetent, poor job of cleaning the creeks by valley Waters employees. I have to remind you that this also an officer with your employees followed and did whatever he wanted them to do. Although I have everything to show in other areas of the creek where it has not been in officer and the valley water employees just take it up on themselves to do things like stealing everything regardless!

1. Mr nalawagan would like this resolved.
2. I pleaded with him for one last chance to give to valley water without going to the media. So here's what he would like except proposal which pretty sure you're not going to pay attention to but at least I tried at least I tried.
3. 9,500 he is willing to accept
4. He wants the opportunity on a part-time basis to be considered for a position is valley water which would be.... Let me simplify it please

Richard Ricardo nalawagan would go out three times a week or five times a week whichever you prefer and check and make sure that everything was cleaned the proper way now I'm thinking! You would be heroes because you would actually be doing what you guys we're supposed to do. I understand departments and you may not get the correct information so I just think it's for the better of embarrassment of what valley water isn't doing I'm trying to educate you I lived it I see it but if you don't want to do it don't and I'm sure you're not this will probably not even get to you that's those are the conditions okay I mean have you ever met anybody that is just wanting to make a difference without them being known I doubt it I wrote all this out of the goodness of my heart but for the most part, good luck to you.
