**Subject:** Re: Valley Water June 17, 2022 Water Storage Exploratory Committee Meeting

Dear Committee Members:

I ask that the following comment be read aloud during the meeting:

*I would like to go on record as opposing Santa Clara's proposed increase in its diversion from the proposed Sites Reservoir. My reason is the extremely negative impact that the proposed Sites Reservoir would have on endangered salmon runs in Sacramento and Trinity Rivers and the Sacramento-San Joaquin Delta.*

*Thanks for your consideration of my position.*

*Sincerely,*

**Tryg Sletteland**

*Founder and First Executive Director (1986-1993),  
Sacramento River Council (from 1994 to present  
part of the Sacramento River Preservation Trust*
