Re: Formal Request for Groundwater Exemption due to Zone Changes (2020)

To Whom it May Concern,

There is one well on the property APN: 708-39-012. The domestic well number is: 08S02E31E014.

The zone boundaries were changed in 2020 and some of those boundaries were delineated in partial with arial photos. Our well is within 250' of our neighbor's well which is included in the Board-approved zone change. This is the first reason we believe we are in new zone area.

Secondly, attached is the well completion report with the Geologic Log. You will see that we don't pull water from VW aquifer as our depth is 500' in many feet of shale.

In our opinion, we do not pull water from your sources or the groundwater.

Your consideration in changing our zone would be greatly appreciated.

Sincerely,

Chris and Jennifer Morris
