Dear Valley Water Board Members,

We urge you to stop planning and funding for the Pacheco Dam. The environmental damage it will cause (encroachment on Coe Park, violation of Amah Mutsun heritage lands, increased truck traffic during construction, etc.) do not seem worth it. This is especially true because it will not create any new water source, only store water which will have to be pumped uphill. Please direct your funding and efforts towards all other alternatives.

Sincerely,

Jim and Connie Rogers
