Comments:	<p>It came to my attention this week that a Santa Clara Water District Committee is considering recommendations that when District-owned residential rental properties become available and are deemed suitable by the District and applicable city, the County Office Supportive Housing will be contacted to be given first opportunity to see if the properties will be conducive to provide housing for the homeless. I would like to respectfully assert that the neighborhood in which I live that has 19 such homes along the Stevens Creek Corridor owned by the water district is not such a neighborhood conducive to having homeless people placed in these homes. This is an area that is not close to public transportation, or other services that would be required for homeless folks that would need the support to matriculate. This is a tight-knit neighborhood with folks that are very active in the Mountain View community with School Board Members, City Council members, and active community members living in the neighborhood. There will be a fight to not have families here that have paid millions of dollars for their properties see those property values go down because there is a perceived exposure to the danger, the drugs and the "Skid Row" feeling that this plan will bring to our community. I respectfully submit that the Waverly Park homes currently owned by the SCVWD are not suitable for homeless people who are in need of matriculation. Thank You for your consideration</p>
