

# Coyote Creek Flood Protection

## Montague Expressway to Interstate 280 – San José

The project is located in the central portion of the Coyote Watershed and extends approximately 6.1 miles between Montague Expressway and Interstate 280 in San José. The primary project objective is to enhance the creek's conveyance to protect homes, schools, businesses, and highways from the 1% or greater flood frequency events and includes the planning, design, and partial construction. Alternative funding sources will need to be identified for the remaining construction work.

### Benefits

- Planning and design for flood protection of 1,400 businesses and homes from a 1% flood when the entire project from Montague Expressway to Interstate 280 is constructed
- Improves water quality, enhances stream habitat and recreational opportunities
- Incorporates revegetation and aesthetic elements of the Coyote Creek park chain in the project

### Key Performance Indicator

1. Complete construction of downstream project elements.

**Geographic Area of Benefit:** Milpitas, San José and Morgan Hill
