Comments:	I have two comments on Outreach and Next Steps for Joint Use. I have one off-topic but related question on status of updating Resolution 82-30. -- 1) Staff does not identify who are considered "stakeholders" for the outreach meeting to be held in South County by the end of 2018. I would like to see some public participation, perhaps Morgan Hill Parks and Recreation Commission and Bikes/Pedestrians Advocacy Group. -- 2) Will the new design guidelines be retroactive? Morgan Hill has several existing MOUs with the District to allow use of District property for City trails. If authorized maintenance activities by the District required rebuilding after the work, would the new standards be in effect (e.g. removing or reducing hardscape improvements?). -- 3) At your January 10 2017 Board meeting, you had Item #6.3 on specific South County trails within PL-566 governed by Resolution 82-30. Vince Gin had the item. He has since transferred to FAHCE. He was going to take my submitted land use map in the area between Watsonville and Lake Silveira and create an official determination of lands within "Resource Conservation Areas". Who now owns this item and when might we see it again before the Board? --
