Hello Tracy I tried to send this electronic comment for agenda item 5.1 for Tues' Apr 10 meeting yet the WD's website page for doing so seemed to not work for the select the date box and I couldn't proceed. Can you add what the comment below in the appropriate way for me ?
Thanks !

Los Angeles Mayor Eric Garcetti recently wrote that the Brown/Trinity delta megatunnels are an example of "tunnel vision that endangers the fragile Bay/Delta and precious ratepayer dollars". It is significant that a southern California mayor is defending our Bay/Delta. It would be also be significant if the Santa Clara Valley Water District would join Mayor Garcetti and also oppose the megatunnel approach to solving water problems.

Subject: SCVWD Water Supply Master Plan Board Update - 4/10/18

This is to let you know that an update on development of the Water Supply Master Plan Update 2018 is on the SCVWD's Board agenda (Item 5.1) for April 10, 2018. The link to the agenda is below. The update includes an updated water supply outlook based on recent Board actions, a summary of input staff received at the January workshops, and preliminary information on cost of shortage.

The annual public hearing on recommended groundwater production and other water charges for FY 2018-2019 is also on the agenda.
