WHEREAS, the Santa Clara Valley Water District ("District") is the owner of certain real property acquired for agricultural, environmental restoration, water quality protection, and flood management purposes, situated in the County of Santa Clara and depicted in Exhibit A ("District Property"); and

WHEREAS, Pacific Gas and Electric Company is the owner of existing easement rights encumbering District Property for an existing transmission tower and lines; and

WHEREAS, Pacific Gas and Electric Company desires to acquire additional easement rights depicted in Exhibit B, the Easement Deed, to accommodate replacement of the existing transmission tower with a larger tower to meet vertical clearance standards set by California Public Utilities Commission General Order 95; and

WHEREAS, Section 31 of the District Act (California Water Code Appendix §60-31) allows the Board to determine, by resolution duly entered in their minutes that any real property, or interest therein, held by the District is no longer necessary to be retained for the uses and purposes thereof, and may thereafter sell, lease, or otherwise dispose of the property pursuant to the requirements of law governing that action by counties; and

WHEREAS, California Government Code Section 25526.6 allows the board to grant an easement of any real property of the District to a public utility corporation in the manner and upon the terms and conditions as the board prescribes, upon a finding by the board that the conveyance is in the public interest and that the interest in land conveyed will not substantially conflict or interfere with the use of the property by the district; and

WHEREAS, the additional easement desired by Pacific Gas and Electric Company will not substantially conflict or interfere with the District use, operation or maintenance of the District Property; and

WHEREAS, the District Act requires that notice of the board's intended action shall be as prescribed in Section 25363 of the Government Code, which requires notice of the sale to be

given for five days prior thereto either by publication in a newspaper published in the district or by posting in three public places in the district; and

WHEREAS, District staff has met with this requirement by posting the notice of this sale in three public places within the District's jurisdictional boundaries five days prior to the October 9, 2018 regular District Board meeting; and

WHEREAS, the Board of Directors, as the Lead Agency under the California Environmental Quality Act, have determined the project will not have a significant effect on the environment and qualifies for Categorical Exemption. This Project qualifies for Categorical Exemption under CEQA Guidelines §15301(b) Existing Facilities, §15302(c) Replacement or Reconstruction, §15303 New Construction or Conversion of Small Structures, and §15304, Minor Alterations to Land Class 4. 1. That the recitals and exhibits are incorporated herein by this reference.
2. That the easement rights described and depicted in Exhibit B, are no longer necessary to be retained for District uses and purposes.

5. That the approved fair market value of the easement rights is \$1,100.00, as determined and agreed upon by both Pacific Gas and Electric Company and the District.
6.
