

## Santa Clara Valley Water District Board of Directors 2018 Meeting Days Data for January through November

The table below shows the number of meeting days reported by the District Directors, January through November 2018, through the expense reporting process. The Directors indicate that they have not reported all meetings that would otherwise qualify because only 10 meeting days are compensable. Therefore, the numbers below do not capture all the District business meetings that occurred, only those reported for expense reporting purposes.

During the first 11 months of 2018, the District Board of Directors reported 224 meeting days that were unpaid because the meeting days occurred in months which exceeded the 10 meeting days per month limit.
