Subject: Determining Board of Directors Compensation

To: Santa Clara Valley Water District Board

I see this item offers three proposed levels of compensation. I submit that the scope of compensation present is incomplete and far from being transparent.

Besides the stated dollar amounts of proposed compensation, what are the other compensations directors receive? I understand Directors, Administrators and some or all employees do not pay for water service. Is that true? What are the health and retirement benefits, expense account maximum, mileage allowance?

Without full disclosure of compensation, knowing what is a reasonable level of meeting compensation. Give the absence of knowing the full amounts of Director compensation, I stand behind keeping the compensation at the current level and NO need for compensation beyond the 10 days.

Sincerely,

Kenneth Colson  
2232 Bailey Ave  
San Jose! CA 95128
