5700 Almaden Expressway, San Jose, CA 95118
- April 11, 2019  
Morgan Hill City Council Chambers  
17555 Peak Avenue, Morgan Hill, CA
- Why:** The Santa Clara Valley Water District (water district) has prepared an annual report on the Protection and Augmentation of Water Supplies documenting financial and water supply information, which provides the basis for recommended groundwater production and surface water charges for fiscal year 2019/2020.
- The report includes financial analyses of the water district's water utility system; supply and demand forecasts; future capital improvement, maintenance and operating requirements; and method to finance such requirements.
- The water district will hold a public hearing to obtain public comments on the report, which will be available at the hearing.
- Based upon findings and determinations made at the public hearing, including the results of the surface water protest procedure, the water district Board of Directors will decide whether or not groundwater production and surface water charges should be increased, and if so, to what level, in each charge zone or zones for the fiscal year beginning July 1, 2019.

All operators of water-producing facilities within the water district or any person interested in the water district's activities with regard to protection and augmentation of the water supply may appear, in person or by representative, and submit comments regarding the subject.
