**ADDENDUM NO. 1  
TO CONTRACT DOCUMENTS FOR THE  
SAN FRANCISQUITO CREEK MITIGATION PLANTING AND  
ESTABLISHMENT MAINTENANCE PROJECT  
Project No. 26284002 Contract No. C0644**

Notice is hereby given to Prospective Bidders that the Contract Documents are modified as hereinafter set forth.

**BID DOCUMENTS**

**NOTICE TO BIDDERS**

**3. Summary of Work**

**REPLACE** paragraph A. in its entirety with:

**"A.** Project Description. The Project scope includes the following:

The objective of the Project is to install tidal riverine/tidal marsh habitat enhancement and mitigation plantings, and maintain those plantings during the identified establishment period. The Project includes, but is not limited to, the following major components:"

**REPLACE** the text in the last paragraph that reads:

"The District anticipates awarding a contract for planting and two years of plant maintenance in February 2019. The plant maintenance activities for year two will be awarded as a supplemental bid item." with:

"The District anticipates awarding a contract for planting, and up to two years of plant maintenance. The plant maintenance activities for year two, if awarded, will be as Additive Bid Items."

**4. Contract Time**

**REPLACE** the text that reads:

**"4. Contract Time.** Time limit for the completion of the work is 790 calendar days." with:

- “4. Contract Time.** Time limit for the completion of the work is 425 days from the first chargeable Day of the contract for Planting and Year 1 - Plant Establishment Maintenance. If Additive Bid Items 1, 2 and 3 for Year - 2 Plant Establishment Maintenance are awarded, the time limit for completion of the work is 790 Days from the first chargeable Day of the contract.

**REPLACE** paragraph C. with:

- “C. Milestone #3:** Additive Bid Items 1, 2 and 3 for the second year of the plant establishment period, if awarded, shall be completed before the expiration of 790 Days from the first chargeable Day of the Contract.”

## **6. Estimated Cost**

**REPLACE** paragraph A. **Additive/Deductive Bid Items.** with:

- “A. Additive/ Deductive Bid Items.** Additive Bid Items 1, 2 and 3 are for Year 2 - Plant Maintenance Establishment and associated Year 2 activities. These Bid Items may or may not be awarded at the sole discretion of the District. The sum of the Total Base Bid and the Total Additive Bid will be used to determine the lowest Bid price.”

**REPLACE** paragraph B. **Supplemental Bid Items.** with:

- “B. Supplemental Bid Items.** Not Used.”

## **BID FORM NO. 1**

**REPLACE** BID FORM NO. 1 Proposal Form and Bid Items, with:

“BID FORM NO. 1 (REV 1) Proposal Form and Bid Items” (**ATTACHMENT 1**)

required. The quantities may be increased or decreased to any amount, or deleted entirely, by change order(s) at the bid unit price, at the discretion of the Engineer."

### **GENERAL QUESTIONS & RESPONSE**

Question 1	What are the qualifications or educational requirements of the biological monitor?
Response 1	Minimum qualifications, including educational requirements, of Qualified Biologists and Biological Monitors are provided in Special Provisions Article 19.07.02. Note in Article 19.07.02.D that resumes for qualified biologists and biological monitors may be submitted to California Department of Fish and Wildlife (CDFW) and US Fish and Wildlife Service (USFWS) for approval. The definitions of qualified biologists and biological monitors in Special Provisions Article 19.07.02 are consistent with CDFW and USFWS requirements.
Question 2	What are the plant survivorship rates after year 1? Year 2?
Response 2	Plant survival shall be at least 75% at the end of Year 1, as documented in the Plant Survival Report (Article 24.01.E.2), and 65% at the end of Year 2, if Additive Bid Items 1,2, and 3 are awarded. Required plant survival rates may be negotiated based on flow and tidal events, plant establishment patterns, and/or cover of native vegetation whether planted or naturally recruited.
Question 3	Is the contractor responsible for purchasing all replacement plant material?
Response 3	The District will provide replacement plants at the Contractor's expense, subject to Article 24.01.E.2.
Question 4	Can the contractor use retreated water to water the plants?
Response 4	Yes, subject to the specifications in Articles 23.02.B.6, 24.04.B.2, and 24.05.B.2.
Question 5	Can the contractor use water from fire hydrants (May Contain Chlorine)?
Response 5	No.
Question 6	Can the district show an example of riling that the contractor would be responsible for repairing?
Response 6	Contractor will be responsible for repairing riling that, based on location, season, and/or magnitude, can be reasonably attributed to contractor activities.
Question 7	Will the contractor be responsible for repairing riling that is caused by tides?
Response 7	No.

Question 8	What is the total area of the hydro seed area that will need to be irrigated for bid item # 5?
Response 8	Up to 317,780 square feet (7.5 acres).
Question 9	What is the inboard and outboard acreage of the area to maintained?
Response 9	Up to 5.7 acres of outboard levee and up to 1.8 acres of inboard levee for mowing and potential watering, and up to 15.1 acres of inboard marsh for weed treatment and potential watering of plantings.
Question 10	What is the weight limits for the asphalt pathway?
Response 10	The weight limit is 5 tons.
Question 11	Can the contractor use a mowing attachment on a skid steer during the mowing events?
Response 11	A mowing attachment on a skid steer, or similar mechanized mowing equipment, may be used on outboard levee surfaces, provided all necessary pre-mowing surveys and biological monitoring are conducted, and levee surfaces will not be damaged by the equipment. On inboard levee surfaces, hand-held string trimmers (i.e., weedwhackers) may be used provided all necessary pre-mowing surveys and biological monitoring are conducted.
Question 12	Would the district consider having Bid Item No. 4 "Year 1 – Container Plant Watering" as an add/alternate? It was discussed at the pre-bid meeting that tidal action would be the main method of watering plants vs the specifications which call for 5 events for Year 1. Should the contractor assume hand watering events will be required? Or on an as needed basis?
Response 12	Contractor should assume that Bid Item No. 4 will be performed on an as-needed basis. Per watering event unit pricing and Engineer approval prior to a watering event were specified to account for this scenario.
Question 13	Would the district consider Bid Item No. 5 "Hydroseed Irrigation" as an add/alternate?
Response 13	Contractor should assume that Bid Item No. 5 will be performed on an as-needed basis. Per irrigation event unit pricing and Engineer approval prior to an irrigation event were specified to account for this scenario.
Question 14	It was discussed at the pre-bid meeting and stated in the specifications that ½" of water (~120,000 gallons) will be applied using water trucks. Will temporary trail closures be allowed when water trucks are used to deliver water?
Response 14	Temporary trail closures can be allowed but must be coordinated at least two weeks in advance with the Engineer. See Articles 12.01 (Summary of Work – Plant Maintenance), 18.11 (Recreation), and 24.02.C (Mowing – Placement).

Question 15	Would side-spraying from a water truck be an approved method of water placement or should the contractor assume a temporary on-grade overhead sprinkler system will be required to accurately apply the ½" of water?
Response 15	Either option could be an approved method. Note response to Question 6.
Question 16	Will the contractor be allowed to park a water truck on the shoulder of asphalt trail?
Response 16	No. The District has found that trucks using the unpaved top of the levee cause damage to the edges of the asphalt trail and to the top of levee. A water truck and other maintenance vehicles would need to remain on the paved trail. Note response to Question 14.
Question 17	Under what bid item do we put the biologist fees and do you need the Biologist throughout the life of the contract?
Response 17	The Biologist work would be accounted for in Bid Item #6 Biological / Environmental Compliance, and is required for the duration of the contract. Please refer to Articles 19.07.02 and 24.06 in the Specifications.
