

## 2018 Annual Accomplishments Report: Santa Clara Valley Water Commission

Update: January 2019

GP8. Accordingly, the Board has established Advisory Committees, which bring respective expertise and community interest, to advise the Board, when requested, in a capacity as defined: prepare Board policy alternatives and provide comment on activities in the implementation of the District's mission for Board consideration. In keeping with the Board's broader focus, Advisory Committees will not direct the implementation of District programs and projects, other than to receive information and provide comment.

The annual work plan establishes a framework for committee discussion and action during the annual meeting schedule. The committee work plan is a dynamic document, subject to change as external and internal issues impacting the District occur and are recommended for committee discussion. Subsequently, an annual committee accomplishments report is developed based on the work plan and presented to the District Board of Directors.

ITEM	WORK PLAN ITEM	MEETING	INTENDED OUTCOME(S) (Action or Information Only)	ACCOMPLISHMENT DATE AND OUTCOME

	Fiscal Year 2019 Proposed Groundwater Production Charges.	April 11	Production Charges. <b>(Action)</b> <ul style="list-style-type: none"> <li>Provide comments to the Board, as necessary.</li> </ul>	Year 2019 Proposed Groundwater Production Charges as follows: Commission's summarized comments <ol style="list-style-type: none"> <li>How are rates publicized to the community? There needs to be some outreach explaining why the rates are being increased.</li> <li>Need to show a long-term trend of the cumulative effect of rates over 10 to 20 years (reviewing projections of total costs).</li> <li>Suggest having a steady increase as opposed to a dramatic increase in the rates. Keeping the rates low as possible being the ultimate goal. Look at the rationale of returning funds or placing them in a "holding" fund (reserves) for later use if possible so a request for an increase will be unnecessary or minimal.</li> <li>Since construction costs are high does the District consider delaying capital improvement projects until costs are more cost effective?</li> <li>Does the District receive development monies? If not, there needs to be a mechanism in place for the District to collect fees/funds when developers come to the County and cause impacts to the infrastructure. Suggest the District have discussions with those that could provide the funding</li> </ol>
