

Presentation to Santa Clara Valley Water District

Disclosure Responsibilities Under the Federal Securities Laws

Presented by:

Doug Brown
Stradling Yocca Carlson & Rauth

Why Is Disclosure Necessary?

- The District issues securities in the public capital markets
- Investors in municipal securities have rights under federal securities laws
- All "material" information must be disclosed

The Securities Act Of 1933

- Antifraud Rule applies to municipal securities
 - Prohibits any person from, directly or indirectly, obtaining money or property by means of any untrue statement of a material fact or by a misleading omission.
 - Negligence standard (should have known)

Securities Exchange Act Of 1934 Rule 10b-5

- Also contains antifraud provisions (Rule 10b-5)
- Antifraud provisions apply to government issuers

Rule 10b5

"It shall be unlawful for any person . . .

- a) To employ any device, scheme or artifice to defraud,
- b) To make any untrue statement of a material fact or to omit to state a *material* fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading"

The "Materiality" Standard

- "[w]hether or not there is a substantial likelihood that a reasonable investor or prospective investor would consider the information important in deciding whether or not to invest."
- Materiality is determined in context of all the facts and circumstances, but in <u>Hindsight</u>
- Guidance comes primarily from court decisions and SEC enforcement cases. In the recent MCDC "self-reporting" program, SEC staff consistently refused to provide advance guidance on what constitutes a "material" misstatement of facts

What Should Be Disclosed?

- Unlike corporate securities, there is no "line item" set of rules for what goes into an Official Statement ("OS")
- Various groups have suggested disclosure for particular market segments and general guidelines for OS content
- Look at practices in the industry; recent developments (e.g. Pension, Continuing Disclosure Compliance)
- In the end, the District must use its own good judgment

When Do Disclosure Rules Apply?

- New offerings
- Annual Report under Rule 15c2-12
- Any other circumstance where an Issuer is "speaking to the market"

Content of Annual Reports

- Audited Financial Reports
- Information (i.e. tables) identified in Continuing Disclosure Undertaking
- Additional voluntary information
- Consider Rule 10b5 implications is there more you should be saying?
- Has anything happened since the date of the audited financial reports that has materially impacted your financial condition?

Investor Communications

- No obligation to communicate with investors
- Tension between market (and SEC) desire for transparency and potential issuer liability
- Establish a single point of contact
- Speeches and presentations may be "speaking to the market"

District Disclosure

- Official Statement is offering document to investors
- Must contain all material information for the particular bond sale
- Official Statement is the <u>District's document</u>
- Underwriters, municipal advisers and lawyers can help develop the Official Statement but the District is ultimately responsible for content

Disclosure Principles

- Historical and projected revenues, expenses and debt service coverage
- Additional bonds test
- Information on debt types and amounts
- Litigation

Disclosure Principles – (cont.)

- Provide main points but do not overwhelm readers with detail
- Highlight important developments "up front"
- Determine appropriate level of importance for any particular event or budgetary item
- Bringing all these factors together into final product is ongoing process of give and take
- Consider maintaining Attorney-Client privilege for sensitive issues

Timing Considerations For Bond Sale

- Progression of an offering
 - POS⇒ sale ⇒ final OS ⇒ closing
- Supplements are possible
 - Not preferred, can be disruptive after sale
- Be mindful of public actions or releases likely to occur
 - State budget, District budget, mid-year reports
 - Status of ongoing litigation

Process

- Input from involved departments
- Empower staff at all levels
- District coordinates; Counsel helps pull information together and maintains document
- Drafts reviewed by working group
- "Due diligence" meeting before distribution of Preliminary Official Statement

Current Hot Topics

- Status of fund balance and reserves
- Expected increases in retirement related payments; unfunded liabilities (pension and OPEB)
- Accounting practices
- Continuing Disclosure Compliance
- Use of Bond Proceeds

Disclosure Considerations

- Tomorrow's "hot topic" may be different than today's
- Disclosure must evolve to reflect changing circumstances
- Read the disclosure with "fresh eyes"
- If you think something may be a concern, raise the issue with District staff and legal counsel, consider discussing with the working group
- Political sensitivity and confidentiality considerations are <u>not</u> exceptions to disclosure

Topics of Recent SEC Enforcement Actions

- Misleading or Incomplete Financial Disclosures
- Failed Economic Development Projects
- Inadequate Pension Disclosures
- Failure to disclose missed Continuing Disclosure Filings

Increasingly Aggressive Actions by SEC in Recent Years

- Filings against States: N.J., Illinois, Kansas
- Levying fines against issuers: Wenatchee, Westlands
- Increasingly charging issuer officials along with the issuer: Miami, Allen Park, Harvey, Wenatchee, Victorville, Westlands, RIEDC, Ramapo
- Levying fines against individual defendants:
 San Diego, Allen Park, Harvey, Westlands, RIEDC
- Officials barred from future involvement in municipal finance: Allen Park, Harvey; sought in Ramapo

Increasingly Aggressive Actions by SEC in Recent Years (cont.)

- Official who did not participate in bond deal charged as "controlling person" because he directed actions of others: Allen Park; Ramapo
- Individuals charged with "aiding and abetting" securities law violations: RIEDC, Ramapo
- Criminal charges against issuer officials: Ramapo
- Charging securities law violations in a situation which did not involve a bond offering: Harrisburg

Increasingly Aggressive Actions by SEC in Recent Years (cont.)

- Most settlements require implementation of remedial actions and training; in some cases issuer required to hire outside disclosure counsel for a period of years: Harvey, sought in Ramapo
- SEC brings actions even when there was no default, no rating downgrade, or any evident market impact on the bonds. (Port Authority; MCDC cases) Unlike in a private action, the SEC does not need to prove damages or reliance.

Consequences of Bad Disclosure

- SEC Investigation fees for lawyers and consultants
- Adverse publicity
- Personal Fines
- Reduced market access
- May have to impose new procedures and oversight to settle SEC actions
- Rating Downgrades (triggers increased credit/liquidity provider fees)

Summary

- Investors must be provided all material information—When in doubt, disclose
- Officials participating in the disclosure process must be in a position to know material information (i.e., "the right people must be in the room")
- Top management must support and encourage vigorous disclosure program
- Involved officials must receive training; District must maintain rigorous disclosure practices
- Protect Attorney-Client Privilege
- Adopt formal disclosure policy, including policies and procedures to ensure to ensure continuing disclosure compliance
