## ADDENDUM NO. 1 <br> TO CONTRACT DOCUMENTS FOR THE <br> SAN FRANCISQUITO CREEK MITIGATION PLANTING AND EŚTABLISHMENT MAINTENANCE Project No. 26284002 Contract No. C0649

Notice is hereby given to Prospective Bidders that the Contract Documents are modified as hereinafter set forth.

## GENERAL QUESTIONS \& RESPONSE

| Question 1 | Can you provide the seed mix that was used for the erosion control mix? |
| :--- | :--- |
| Response 1 | Bromus carinatus, California Brome, 12 Ibs/acre <br> Elymus x Triticum, Regreen, 22 Ibs/acre <br> Hordeum brachyantherum, Meadow Barley, 8 Ibs/acre <br> Hordeum depressum, Alkali Barley, 6 lbs/acre <br> Elymus glaucus, Blue Wildrye, 10 lbs/acre |
| Question 2 | Plant Establishment Maintenance shall consist of all work and materials <br> necessary to maintain the planting areas. Can you confirm the sum of the <br> two planting areas the Contractor is responsible for conducting <br> maintenance and eradicating noxious weeds in is approximately 14 acres? |
| Response 2 | Yes. The planting areas are approximately 14 acres in total. |
| Question 3 | Are utility vehicles allowed within the planting areas to facilitate planting and <br> maintenance activity? |
| Response 3 | No. See Technical Provisions Sections 23.02.A.3 and 24.01.A.3. <br> Question 4 <br> Response 4Is complete eradication of all noxious weeds the expectation for the planting <br> areas? |
| Not necessarily. The expectation is that the noxious weeds in Technical <br> Provisions Section 24.03.A.3 will be removed in their entirety from the <br> planting areas, and that "...other noxious weed species may be present and <br> should be controlled." |  |

Page 1 of 2

| Question 5 | Can you confirm Contractor is not responsible for weed control within the <br> hydroseed areas? |
| :--- | :--- |
| Response 5 | No. If any of the noxious weeds in Technical Provisions Section 24.03.A.3 <br> are found in the hydroseed area they would need to be treated. See <br> Technical Provisions Section 24.03.C.5. |
| Question 6 | Is there a water source on site that a temporary meter could be installed to <br> for water? |
| Response 6 | No. The closest water source the District is aware of is the Palo Alto <br> Wastewater Treatment facility (2501 Embarcadero Way, Palo Alto, CA <br> 94303). |
| Question 7 | Can the district provide the quantities of plants of each plant container <br> sizes? (IE. 10,000 Each Treeband 2' \& 10,000 Treeband 4) |
| Response 7 | No. Container sizes will depend on the size and root growth conditions of <br> the plants at the time of delivery to the project site. |

THIS ADDENDUM NO. 1, WHICH CONTAINS 2 PAGES, IS ATTACHED TO AND IS A PART OF THE SPECIFICATIONS AND CONTRACT DOCUMENTS FOR THIS PROJECT.
