**RESOLUTION NO. 20-**

**RESOLUTION AMENDING THE BOUNDARIES OF GROUNDWATER BENEFIT ZONE W-5**

WHEREAS, the Santa Clara Valley Water District (Valley Water) is charged with managing the groundwater subbasins in Santa Clara County per the Santa Clara Valley Water District Act and the Sustainable Groundwater Management Act; and

WHEREAS, the Santa Clara Valley Water District Act authorizes the Valley Water Board of Directors to establish zones encompassing areas where groundwater pumpers benefit directly and indirectly from Valley Water activities to protect and augment water supplies; and

WHEREAS, by assessing a groundwater production charge on water producing facilities within the groundwater benefit zones, Valley Water funds and implements projects and activities for the benefit of groundwater pumpers in the zone, ensuring continued groundwater supply and sustainability, consistent with the purposes set forth in the District Act and requirements of the Sustainable Groundwater Management Act; and

WHEREAS, the Valley Water groundwater benefit zone W-5 was established in 1977 and last modified in 2008; and

WHEREAS, Valley Water's activities benefitting groundwater pumpers have changed, and new and more detailed information has become available regarding the groundwater subbasins Valley Water manages since the existing groundwater benefit zones were first established; and

WHEREAS, Valley Water undertook an independent, science-based study beginning in 2014 to ensure the zones reflect the most recent and relevant data regarding the services and benefits received by well owners and operators (well users); and

WHEREAS, Valley Water conducted the study with extensive public outreach including notices to potentially affected well users and interested parties, presentations to Valley Water Board of Directors committees and public agencies, meetings and communication with individual well users and water retailers, and open houses; and

WHEREAS, after completing the study using the best available science and considering information provided by well users, it was determined that all well users in proposed modified Zone W-5 are benefiting in a reasonably similar way from Valley Water activities to protect and augment groundwater supplies; and

WHEREAS, the results of the study and the proposed modification of Zone W-5 were presented to the Board of Directors on August 27, 2019, and October 8, 2019; and

WHEREAS, on October 8, 2019, the Board of Directors directed staff to prepare metes and bounds for modified groundwater benefit zone W-5 for consideration at a public hearing.
