

Santa Clara Valley Water District Annual Audit Work Plan, FY 18/19 to FY 20/21.

DRAFT AUDIT WORK PLAN – OCTOBER 13, 2020

SANTA CLARA VALLEY WATER DISTRICT BOARD OF DIRECTORS DRAFT
ANNUAL WORK PLAN, FY 18/19 TO FY 20/21

OVERVIEW

The selection of audits is an important responsibility of the Audit Committee. The formulation of this audit work began in 2018 when the Valley Water's Board of Director provided input and approved the enterprise risk assessment that was administered across agency operations. The audit work plan is a culmination of a comprehensive effort to consider input on auditable areas from Valley Water employees, mid-level management, executive management, and Board Directors.

The proposed audit work plan considers factors that, if addressed, will provide opportunities to mitigate those risks and improve operations. These factors include:

- **Operational** – Are Valley Water programs/activities performed and services delivered in the most efficient, effective, and economical manner possible, and do they represent sound business decisions, including appropriate responses to changes in the business environment?
- **Financial** – Is there an opportunity to improve how Valley Water manages, invests, spends, and accounts for its financial resources?
- **Regulatory** – Do Valley Water programs and activities comply with applicable laws and regulations?
- **Health and Safety** – Are Valley Water services delivered in a manner that protects our residents and employees from unnecessary exposure to environmental factors?
- **Information Security** – Are Valley Water's information systems and networks protected against unauthorized access, use, disclosure, disruption, modification, inspection, recording, or destruction?

In addition, the proposed audit work plan considers several other factors in the selection of audits.

- **Relevance** – Does the audit have the potential to affect Board decision-making or impact Valley Water customers and residents?
- **Best Practices** – Does the audit provide the opportunity to compare current performance to best practices?
- **Return on Investment** – Does the audit have the potential for cost savings, cost avoidance, or revenue generation?
- **Improvement** – Does the audit have the potential to result in meaningful improvement in how Valley Water does its business?
- **Risk** - The audit work plan also considers risks related to major functions, as identified through a 2017 enterprise risk assessment conducted by TAP International.
- **Audit Frequency** – Individual Divisions at Valley Water should not be subject to more than two audits per year.

AUDIT WORK PLAN, FY 18/19 TO FY 20/21

This proposed audit work plan is divided into section. Section A describes ongoing non-audit (e.g. advisory) responsibilities of the Independent auditor and well as other quality assurance activities planned by executive management. Section B describes the audits planned for implementation by the Independent Auditor and other audits planned by Valley Water's executive management.

SECTION A
