Describe how the incident or loss happened, and the reason you believe the Santa Clara Valley Water District is responsible for your damages (*Please attach additional sheets if necessary*):

During the work being done on the West Valley watershed flood protection, Saratoga creek project directly behind my home at 2095 Morrison Avenue in Santa Clara during the month of October 2020, my home would shake like there was an earthquake as the tractors and big trucks did their work. This happened several times while I was home during this month. The consequence of this earth shaking work that was performed has directly affected my home. As of now my front door does not close correctly, My master bathroom door will not close at all, and my pool is leaking water. This seems obvious to me that the earth shaking, the way it did from the work being performed, is the root cause of the newly developed problems with my home.
