# Rate Setting Process

#### District Act Defines Purposes for Groundwater Charges

1. Imported Water Facilities

2. Imported Water Purchases

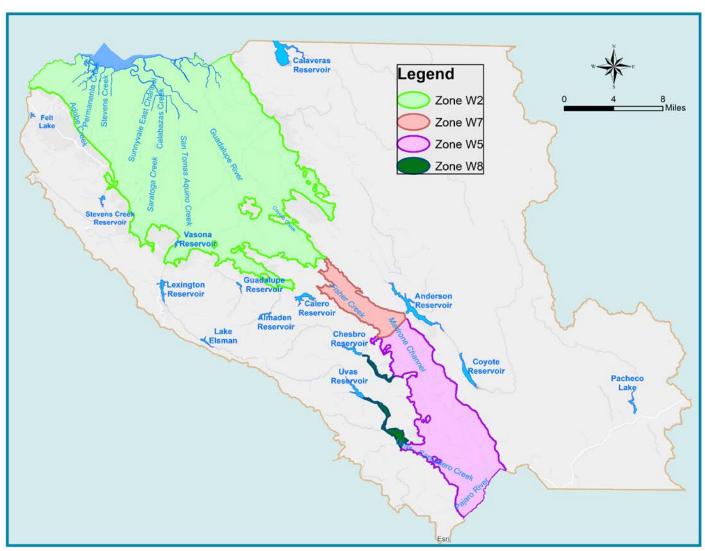

Purposes for Groundwater Charges

3. All Facilities which will "conserve or distribute water including facilities for groundwater recharge, surface distribution, and purification and treatment"

4. Debt

#### Resolution 99-21 is the Board's Pricing Policy

#### **Board Pricing Policy Summary**

- Groundwater charges are levied within a zone for benefits received
  - Modified zones shown became effective on 7/1/2020
- All water sources and water facilities contribute to common benefit within a zone regardless of cost, known as "pooling" concept
  - Helps maximize effective use of available resources
- Agricultural water charge shall not exceed 10% of M&I water charge

#### Prop 218 not applicable to Groundwater Charge-setting process

- ▶ Supreme Court found Prop 218 not applicable to groundwater charges
  - ► Certain Prop 218 requirements continue, like holding a public hearing, and noticing well owners, which are consistent with District Act
- ► Supreme Court found Prop 26 is applicable to groundwater charges

- ▶ To qualify as a nontax fee under Prop 26, GW charge must satisfy both:
  - GW charge established at amount that is no more than necessary to cover reasonable costs of government activity
  - 2. Manner in which costs are allocated to payor bear a fair or reasonable relationship to payor's burdens on, or benefits received from government activity

# The Surface Water Charge-setting Process is Consistent with Prop 218 Process for Water Service Charges

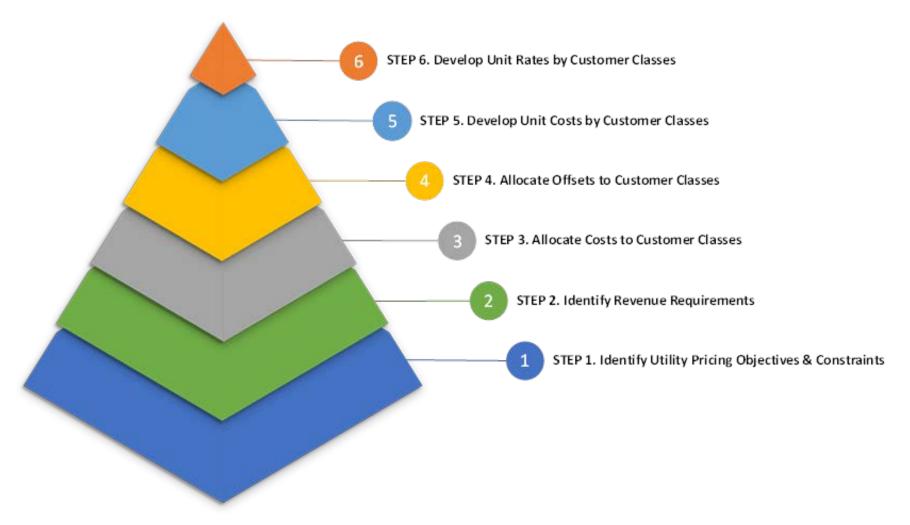

- ▶ Includes cost of service analysis by customer class
- ▶ Includes protest procedure as defined in Board Resolution 12-10
