C0663 - ANDERSON DAM TUNNEL PROJECT

ANDERSON DAM TUNNEL PROJECT Project No. 91864005 Contract No. C0663

1. Notice. Due to the County of Santa Clara Public Health Officer's Order, the Santa Clara Valley Water District offices remain closed to the public until further notice.

Notice is hereby given that sealed Bids will be received by the Construction Program of the Santa Clara Valley Water District (District), delivered either by a third party carrier such as FED EX, UPS, DHL, Ovemight, Golden State Overnight, etc. or by hand delivery, at the District's Winfield Warehouse Building located at 5905 Winfield Boulevard, San Jose, California 95123-2428 only between the hours of 1:00 p.m. to 2:00 p.m. on **Wednesday/March 10, 2021**, for furnishing all material and performing all work necessary for construction of Anderson Dam Tunnel Project, within the Cities of Morgan Hill, California, and San Jose, California, and within Unincorporated Santa Clara County, California.

NO BIDS WILL BE ACCEPTED VIA USPS (US MAIL).

Additional information and Instructions to Bidders are posted on the District's Construction Administration webpage: <u>https://www.vallevwater.org/construction.</u>

2. California State Department of Industrial Relations Contractor and Subcontractor Registration Requirements.

California Labor Code Section 1771.1 requires:

A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, unless currently registered and qualified to perform public work pursuant to Section 1725.5 of the California Labor Code.

An inadvertent error in listing a subcontractor who is not registered pursuant to Section 1725.5 in a bid proposal shall not be grounds for filing a bid protest or grounds for considering the bid nonresponsive, provided that any of the following apply:

- A. The subcontractor is registered prior to the bid opening.
- B. Within 24 hours after the bid opening, the subcontractor is registered and has paid the penalty registration fee.
- C. The subcontractor is replaced by another registered subcontractor pursuant to Section 4107 of the Public Contract Code within 24 hours after the bid opening.

(Rev. 01/20/2021) S14544

3. Summary of Work

- A. **Project Description**. The project scope, in accordance with the Contract Documents, includes the following:
 - Full compliance with federal, state, and local laws, orders, ordinances, and various agencies permit's terms and conditions, as required to construct the project;
 - Furnish a qualified biologist, certified and licensed arborist, and licensed geologist as required for the project;
 - Compliance with NPDES Construction General Permit, including SWPPP preparation, and installation of Best Management Practices (BMPs);
 - Installation of a temporary soundwall to reduce construction noise to the surrounding businesses and residences;
 - Proper excavation, handling, and placement in the on-site disposal area of naturally occurring asbestos containing materials;
 - Control of water, including the design, implementation, and maintenance of dewatering facilities;
 - Mobilization, including, but not limited to the installation of fully operational temporary trailers/office facilities;
 - Demobilization, including, but not limited to the removal and/or legal disposal of all temporary facilities;
 - Implement and maintain public safety measures, including, but not limited to installation of temporary fencing at the perimeter of the work areas;
 - Clearing and grubbing within the project limits, including demolition, the removal of trees, vegetation, concrete, and other miscellaneous items;
 - Surveying, grade control, and construction staking;
 - The Installation and monitoring of portal and tunnel instrumentation;
 - Establishment of site access roads, staging areas, and disposal areas;
 - Excavation and reinforcement of the downstream tunnel portal;
 - Dredging and preparation of the upstream portal;
 - Excavation and initial support of the 18.5-foot tunnel, 24-foot tunnel, and the micro-tunnel boring machine (MTBM) launch chamber;
 - Driving of the 8-foot MTBM tunnel lake-tap from the launch chamber to Anderson Reservoir;

(Rev. 01/20/2021) S14544

ATTACHMENT 1 ANDERSON DAM TUNNEL PROJECT

Page 2 of 26

- Excavation and initial support of the High-Level Outlet Works (HLOW) drop shaft;
- Installation of the final reinforced concrete lining in the MTBM launch chamber and the 24-foot tunnel;
- Installation of steel pipe in the diversion tunnel and HLOW drop shaft;
- Construction of the diversion outlet structure;
- Construction of the upstream trash rack structure below water;
- Installation of steel pipe, displacement couplers, two 132-inch butterfly valves, two 132-inch fixed cone valves, and other mechanical equipment at the diversion outlet structure;
- Installation of electrical components, instrumentation and controls;
- Testing of diversion system;
- Construction of the Coyote Creek channel improvements including the outlet discharge channel, the northern channel, and the reinforced concrete weirs in the northern and southern channels;
- Installation of landscape and landscape maintenance. Landscape maintenance includes maintenance during the landscape installation and maintenance during the one-year establishment period following the landscape installation;
- Provide all the necessary traffic control, traffic control signage, devices, etc. as required for temporary road work, including closures;
- Furnishing and Installation of permanent fencing and gates;
- Utility coordination and installation including, but not limited to raw water line facilities overhead and underground electrical facilities;
- Non-native plant control;
- Revegetation (hydroseeding);
- Other miscellaneous construction work and items necessary to satisfactorily complete the project work.
- B. Sole Source Products. None.

4. Basis of Award.

Valley Water Board of Directors adopted Resolution No. 20-70 Approving Best Value Contractor Selection for the Anderson Dam Tunnel Project on August 25, 2020. A

(Rev. 01/20/2021) S14544 ATTACHMENT 1 ANDERSON DAM TUNNEL PROJECT

Page 3 of 26

Attachment 10 Page 5 of 66

"value" will be established for each bid submitted, determined by evaluation of objective criteria based on price (cost), and qualification (competency, capability, capacity to complete a project of similar size, scope, complexity, recently performed similar projects, references to verify past performance, history of regulatory compliance, bonding capacity, and ability to meet insurance requirements).

The "value" is established by a number, which is calculated by dividing each bidder's price (P) by its qualification (Q) score. When the calculated individual numbers (for each bid) are arranged in ascending order, from lowest to highest, the lowest number becomes or is ranked as the "Best Value" bid, followed by the next highest number and so on. The formula as detailed in the Prequalification Application, Revision 2, Appendix D Calculating a Bidder's Best Value Score, will be used to calculate the qualifications score to weigh quality at 40% and price at 60%.

- 5. Contract Time. Time limit for the completion of the Work is 1.050 calendar days. See * Rev Addendu Contract Documents, Special Provisions, Article 12.03. Contract Time(s) for Milestones and Contract Times.
- 6. Liquidated Damages. See Standard Provisions, Liquidated Damages, Article 5.08 and Special Provisions, Liquidated Damages, Article 12.05 of the Contract Documents for requirements regarding Liquidated Damages.
- 7. Estimated Cost. The estimated cost of the Project is between \$175 million and \$225 million. This estimate is intended to serve merely as an indication of the magnitude of the Work. Neither the Bidder(s) nor the Contractor will be entitled to pursue a claim or be compensated due to variance in the stated estimated cost range.
 - A. Additive/Deductive Bid Items. [NOT USED].
 - B. Supplemental Bid Items. These Bid Items may or may not be required. Supplemental Bid Items include development of staging areas and access roads, excavation, grading, soil nail installation, instrumentation installation to remediate two existing landslides located along the southwestern reservoir rim and excavation, grading, reinforced concrete, soil nail installation, and other miscellaneous work to strengthen the existing sloping intake located on the left abutment upstream of Anderson Dam. The Supplemental Bid Items may be deleted entirely or in part, by deductive change order(s), at the sole discretion of the District.
- 8. Contractor's License Requirement. The Bidder must possess a current Class A Contractor's license issued by the California Department of Consumer affairs, Contractor's State License Board when the Bid is submitted. Regardless of whether a subcontractor must be identified at the time of Bid, each subcontractor must also be properly licensed to perform its scope of Work.

(Rev. 01/20/2021) S14544 ATTACHMENT 1 ANDERSON DAM TUNNEL PROJECT

Page 4 of 26

9. Pre-Bid Conference and Site Visit. A Pre-Bid conference/site visit will be conducted by the District on Wednesday, February 17, 2021. The Pre-Bid conference/site visit will convene at 10:00 a.m. (by District time), at the parking lot at the toe of Anderson Dam at 2499 Cochrane Road, Morgan Hill, CA 95027 (APN 729-48-001). Attendance at the Pre-Bid conference/site visit by subcontractors is not required.

Attendance by the Bidder at the Pre-Bid conference/site visit is:

- Mandatory
- Optional

The objective of the Pre-Bid-conference/site visit is to familiarize prospective Bidders with the site; no additional site visits will be allowed. Please confirm your intent to attend the Pre-Bid conference/site visit 24 hours in advance by sending an email to scvwdplanroom@valleywater.org.

Additional information regarding the Pre-Bid conference/site showing will be sent to all prospective Bidders who confirm their intention to attend.

In response to the COVID-19 pandemic, the District will require that all participants adhere to the orders of Social Distancing. All persons attending the Pre-Bid conference/site visit are required to adhere to the orders of Social Distancing and are also required to bring and wear the appropriate Personal Protection Equipment (PPE), i.e., protective face covering, in order to be allowed entrance onto the site and to remain on the site.

Reasonable efforts will be made to accommodate persons with disabilities wishing to attend the Pre-Bid conference/site visit. Please request accommodations when confirming attendance.

10. Availability of Bid Documents

Due to the County of Santa Clara Public Health Officer's Order, District offices will remain closed to the public until further notice.

The Project Plans and Specifications are considered by the Federal Energy Regulatory Commission as including highly sensitive, confidential information pertaining to critical infrastructure. Therefore, all prequalified Contractors must complete and execute the Non-Disclosure Agreement (NDA) before access to the Contract Documents will be provided. Contractors must also require any party to whom they provide access to the Contract Documents (such as subcontractors in all tiers and suppliers) to first complete and execute a Personal Non-Disclosure Agreement (PNDA) and provide Valley Water with a copy of the signed Agreement.

A copy of the NDA / PNDA form can be obtained at the Valley Water website: https://www.valleywater.org/construction. The completed form must be submitted by email at scvwdplanroom@valleywater.org.

(Rev. 01/20/2021) S14544

ATTACHMENT 1 ANDERSON DAM TUNNEL PROJECT

Page 5 of 26

Attachment 10 Page 7 of 66

The Contract Documents are only available in electronic (PDF) format. The electronic version is free and will be transferred via file transfer appliance (FTA) site.

11. Inquiries. The Bidder must submit all requests for clarification, or interpretation of the Bid Documents in accordance with the requirements stated in Instructions to Bidders, paragraph #7. Questions During Bidding. Written questions must be directed to the Contracts Administrator at scywdplanroom@valleywater.org and submitted at least nine (9) calendar days before the deadline for receipt of Bids.

The District may issue written Addenda as appropriate for clarification or other purposes during the bidding period. Addendum notification(s) will be sent to each planholder at the email address provided by the contractor for the planholders list and addenda will be posted on the District's website at https://www.vallevwater.org/construction.

- A. **Project Manager**. The District's project manager for this Project is Mr. Bal Ganjoo.
- B. **Process Questions**. For questions regarding the bid process, please contact the District Plan Room by email at scywdplanroom@valleywater.org.
- 12. Prevailing Wage Requirements
 - A. Workers employed on this Project must be paid at rates at least equal to the prevailing wage rates as determined by the State of California Department of Industrial Relations pursuant to Section 1770 *et seq*. of the Labor Code. Said wage rates are incorporated herein by reference and are available on the State of California Department of Industrial Relations website at: <u>http://www.dir.ca.gov/.</u> See Standard Provisions, Prevailing Wages Article 4.04. through Apprentices Article 4.06. for related requirements.

Due to the County of Santa Clara Public Health Officer's Order, District offices will remain closed to the public until further notice. The wage rates are therefore not currently available for review at District offices.

- B. This Project is subject to compliance monitoring and enforcement by the State of California Department of Industrial Relations. The Contractor and subcontractors must furnish the records specified in California Labor Code Section 1776 directly to the Labor Commissioner, in the following manner: monthly, in a format prescribed by the Labor Commissioner.
- 13. Bid Proposal Submittal. All Bids must be submitted in sealed envelopes addressed to the Santa Clara Valley Water District. Attention: Construction Programs and state the Project name and Project number on the outside of the sealed envelope. Each Bid must be submitted on the prescribed Bid Forms. All information on Bid Forms must be completed in ink.
 - A. Bid Submittal Delivery. Bidders are allowed to submit a bid proposal by third party carrier or by hand delivery.

(Rev. 01/20/2021) S14544 ATTACHMENT 1 ANDERSON DAM TUNNEL PROJECT

Page 6 of 26

THIRD PARTY CARRIER such as: FEDEX, UPS, DHL, CA Overnight, Golden State Overnight, etc., and must address the submittal in accordance with instructions stated in this paragraph 12. Any Proposal received after 2 p.m. will not be considered. Late Bids will be returned unopened.

HAND DELIVERY shall only be between the hours of 1:00 p.m. - 2:00 pm. on the bid due date, at the Winfield Warehouse located at 5905 Winfield Boulevard, San Jose, CA 95123. Upon entrance to the gate, turn left towards the warehouse building. Bid submittal shall be delivered at a drop off box, marked "Bid/Submittal Drop Box," located in front of the warehouse entrance door. Bidder's must take a picture using its cellphone showing the "Official Bid Clock" timer as proof of delivery. Bidders must observe all Public Health Officers orders and wear proper face covering when dropping off your Bid.

Any Proposal received after 2 p.m. will not be considered. Late Bids will be returned unopened.

NO BIDS WILL BE ACCEPTED VIA USPS (US MAIL). USPS (US Mail) does not deliver to 5905 Winfield Boulevard.

Address the outside delivery envelope as follows: Santa Clara Valley Water District Attention: Construction Contracts & Support Unit **C0663 – Anderson Dam Tunnel Project Project No. 91864005** 5905 Winfield Boulevard San Jose, CA 95123-2428

- 14. Bid Opening. For the duration of the COVID-19 pandemic, to ensure the safety of the public and District employees and requisite social distancing requirements by Order of the County of Santa Clara Public Health Officer, the opening of bids shall be made available to the public only by video teleconference, live-stream, on the date stated in this Notice to Bidders, paragraph #1. Notice, above, at 2:30 p.m. The results will be posted on the District's website at https://www.valleywater.org/construction no later than close of business the following day.
 - A. Join Zoom Meeting. Any person interested in attending the live-stream bid opening, may do so by accessing the link below, or join via phone by calling the toll-free number listed below:

- 15. Errors or Discrepancies in the Bids. The District Board of Directors reserves the right to reject any and all Bid Proposals and to waive minor defects or irregularities in any submitted Bid Form(s).
- 16. Bidder's Security. Each Proposal must be accompanied by cash, a certified check, cashier's check, or an original Bidder's bond in the sum of not less than 10 percent of the total aggregate of the Proposal including all additive and supplemental Bid items, if any. Said checks or bond must be made payable to the Santa Clara Valley Water District.

17. Contract Retention

- The Contract Retention for this Project is established at five (5) percent of the Contract Price.
- The Contract Retention for this Project is established at ten (10) percent of the Contract Price. The Board of Directors has made a finding that the Project is substantially complex and therefore requires retention higher than five percent.
- **18. Substitution of Securities.** The Contractor may, at the Contractor's request and expense substitute securities equivalent to the amount withheld by District to ensure the performance of the contract, in accordance with Public Contract Code Section 22300.
- 19. Small Business Preference. [NOT USED].
- 20. Rights of Way. It is anticipated that easement acquisition from the County of Santa Clara to construct the Coyote Creek modifications portion of the Project will be finalized before April 2021. The construction contract will not be awarded by Valley Water until all required Rights of Way are secured.
- 21. Permits. It is anticipated that all permits necessary for construction of the Project will be finalized before April 2021. The construction contract will not be awarded by Valley Water until all required Permits are obtained.
- 22. Equal Opportunity. The District is an equal opportunity employer and all Contractors of District projects are to have and follow a policy of equal opportunity including adherence

Honorable Board of Directors Santa Clara Valley Water District (District)

Pursuant to, and in compliance with, the Notice to Bidders and the Contract Documents, relating to the

C0663 – **ANDERSON DAM TUNNEL PROJECT**, the undersigned Bidder having become thoroughly familiar with the terms and conditions of the Contract Documents and with local conditions affecting the performance and costs of the Work and having fully inspected the Work site in all particulars, hereby proposes and agrees to fully perform the Work, including providing any and all labor and materials and performing all Work required to construct and complete said Work within the contract time stated and in accordance with the requirements of the Contract Documents, for the following sum of money.

The undersigned Bidder agrees to complete all the Work within <u>1,710</u> calendar days from the first chargeable day of the Contract, as stated in the Notice to Begin Work. The Bidder agrees to enter into a Contract with the District and provide the required bonds and insurance in accordance with the Instructions to Bidders, Contract Bonds, paragraph #22 and Execution of Contract, paragraph #23. If the Bidder fails to meet these requirements within the time specified in the Instruction to Bidders, Failure to Execute Contract, paragraph #24, the Bidder's security accompanying this Proposal may be forfeited and become the property of the District. No Contract exists until all Contract bonds and insurance documents have been accepted by the District.

TOTAL BID: \$ 161,140,321

Bidder acknowledges receipt of the following Addenda to the Bid Documents:

Addenda are posted online at https://www.valleywater.org/construction.

NO Addenda received

Addenda received as follows:

Addendum No1	Date 2/17/2021	Addendum No. <u>5</u>	Date 3/16/2021
Addendum No. <u>2</u>	Date <u>2/23/2021</u>	Addendum No6	Date 3/17/2021
Addendum No. <u>3</u>	Date 3/2/2021	Addendum No. <u>7</u>	Date <u>3/24/2021</u>
Addendum No. <u>4</u>	Date <u>3/9/2021</u>	Addendum No. <u>8</u>	Date 3/25/2021

Failure to acknowledge receipt of an Addendum on the Bid Form is not, in itself, cause for withdrawal or rejection of Bid, if it can be established that Bidder did, in fact, receive such Addendum prior to Bid opening.

Page 1 of 1

This form must be completed in ink and changes must be initialed.

- A. This Designation of Subcontractors form must be completed in compliance with the State of California Subletting and Subcontracting Fair Practices Act, Public Contract Code §4100 et seq., and any amendment thereof. Bidder must complete the form below for each Subcontract that exceeds one-half of one percent (1/2%) of the Bidder's total Bid. A Subcontractor is one who: (1) performs Work or labor; or (2) provides a service to the Bidder; or (3) specially Fabricates and Installs a portion of the work according to the Contract Documents. Bidders failure to list a Subcontractor for any portion of the work in excess of 1/2% of Bidder's total Bid signifies Bidder will self perform that portion of the Work with its own forces. (Note: If more than one Subcontractor is designated for the same kind of Work, state the portion that each will perform.) After the opening of the Bids, no changes or substitutions will be allowed except as otherwise provided by law. The listing of more than one subcontractor for each item of work to be performed with the words "and/or" will not be permitted. Failure to comply with this requirement may render the Bid nonresponsive and may cause its rejection.
- B. Failure by a subcontractor to be registered to perform public work as required by the California Labor Code Section 1771.1 (a) shall be grounds under Section 4107 of the Public Contract Code for the Contractor, with the consent of the awarding authority, to substitute a subcontractor who is registered to perform public work pursuant to Section 1725.5 in place of the unregistered subcontractor.

This form must be completed in ink and changes must be initialed.

- Α. This Designation of Subcontractors form must be completed in compliance with the State of California Subletting and Subcontracting Fair Practices Act, Public Contract Code §4100 et seq., and any amendment thereof. Bidder must complete the form below for each Subcontract that exceeds one-half of one percent (1/2%) of the Bidder's total Bid. A Subcontractor is one who: (1) performs Work or labor; or (2) provides a service to the Bidder; or (3) specially Fabricates and Installs a portion of the work according to the Contract Documents. Bidders failure to list a Subcontractor for any portion of the work in excess of 1/2% of Bidder's total Bid signifies Bidder will self perform that portion of the Work with its own forces. (Note: If more than one Subcontractor is designated for the same kind of Work, state the portion that each will perform.) After the opening of the Bids, no changes or substitutions will be allowed except as otherwise provided by law. The listing of more than one subcontractor for each item of work to be performed with the words "and/or" will not be permitted. Failure to comply with this requirement may render the Bid nonresponsive and may cause its rejection.
- B. Failure by a subcontractor to be registered to perform public work as required by the California Labor Code Section 1771.1 (a) shall be grounds under Section 4107 of the Public Contract Code for the Contractor, with the consent of the awarding authority, to substitute a subcontractor who is registered to perform public work pursuant to Section 1725.5 in place of the unregistered subcontractor.

BID FORM NO. 3 Noncollusion Affidavit

Page 1 of 1

This form must be completed in **ink** and changes must be **initialed**.

In accordance with Public Contra	act Code Section 7106, <u>Shawn Golden</u> (Bidder's full name)
declares that he or she is	Vice President (Bidder's title)
of	Flatiron West Inc. (Company's name)

the party making the foregoing Bid that the Bid is not made in the interest of, or on behalf of, any disclosed person, partnership, company, association, organization, or corporation; that the Bid is genuine and not collusive or sham; that the Bidder has not directly or indirectly induced or solicited any other Bidder to put in a false or sham bid, and has not directly or indirectly colluded, conspired, connived, or agreed with any Bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding; that the Bidder has not in any manner, directly or indirectly or indirectly, sought by agreement, communication, or conference with anyone to fix the Bid price of the Bidder or any other Bidder, or to fix any overhead, profit, or cost element of the Bid price, or of that of any other Bidder, or to secure any advantage against the public body awarding the contract of anyone interested in the proposed contract; that all statements contained in the Bid are true; and, further, that the Bidder has not, directly or indirectly, submitted the Bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, Bid depository, or to any member or agent thereof to effectuate a collusive or sham bid.

I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

BID FORM NO. 5 Bidder's Bond Page 1 of 1

This form must be completed in ink and changes must be initialed.

BE IT KNOWN BY THESE PRESENTS,

That v	ve,	Flatiron West, Inc.	, as PRINCIPAL,
and	Libe	erty Mutual Insurance Company	, as SURETY,

are held and firmly bound unto the Santa Clara Valley Water District, hereinafter called the District, in the penal sum of TEN PERCENT (10%) OF THE TOTAL AMOUNT OF THE PROPOSAL of the Principal above named, submitted by said Principal to the Santa Clara Valley Water District, for the work described below, for the payment of which sum is lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents. In no case shall the liability of the surety hereunder exceed the sum of \$<u>10%</u>.Ten Percent of the Total Amount of the Proposal.

THE CONDITION OF THIS OBLIGATION IS SUCH,

That whereas the Principal has submitted the above mentioned Proposal to the District, for certain construction specifically described as follows, for which Proposals are to be opened at San Jose, California, on <u>3/30</u>, 20<u>21</u>, (or such other date as specified per Addendum) for

C0663 - ANDERSON DAM TUNNEL PROJECT

NOW, THEREFORE, if the aforesaid Principal is awarded the Contract and, within the time and manner required under the Contract Documents, after the prescribed forms are presented to him for signature, enters into a written contract, in the prescribed form, in accordance with the Proposal, and files originals (copies are unacceptable) of the two bonds with the District, one to guarantee faithful performance and the other to guarantee payment for labor and materials, as required by law, then this obligation shall be null and void; otherwise, it shall be and remain in full force and virtue.

In the event suit is brought upon this bond by the obligee and judgment is recovered, the surety shall pay all costs incurred by the obligee in such suit, including a reasonable attorney's fee to be fixed by the court.

IN WITNESS WHEREOF, we have hereunto set our hands and seal on the <u>24th</u> day of <u>March</u>, 20<u>21</u>

BID FORM NO. 6 Iran Contracting Act Bid Certification

Page 1 of 2

This form must be completed in ink and changes must be initialed.

Iran Contracting Act Bid Certification (Public Contract Code Sections 2202–2208) Must be Completed for any Proposal of \$1,000,000 or more

Public Contract Code (PCC) Sections 2200–2208 are known as the Iran Contracting Act of 2010 and prohibit public entities from contracting with companies that have specified business activities in Iran's petroleum sector. Companies seeking to bid on state or local government contracts are required to certify that they are not engaged in developing Iran's petroleum resources.

Prior to bidding on, submitting a proposal or executing a contract or renewal for a Santa Clara Valley Water District contract for goods or services of one million dollars (\$1,000,000 or more), a person (vendor, firm, corporation, etc.) must either: a) certify it is <u>not</u> on the current list of persons engaged in investment activities in Iran created by the California Department of General Services ("DGS") pursuant to Public Contract Code Section 2203(b) and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or b) demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code Section 2203(c) or (d). The DGS list is posted online at: (www.dgs.ca.gov, search "Iran Contracting Act List").

To comply with this requirement, please complete <u>one</u> of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of \$250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts. (Public Contract Code Section 2205.)

BID FORM NO. 6 Iran Contracting Act Bid Certification

Page 2 of 2

This form must be completed in **ink** and changes must be **initialed**.

Please complete one of the options below (see prior page for additional explanation).

OPTION NO.1—CERTIFICATION

I, the official named below, certify I am duly authorized to execute this certification on behalf of the person/financial institution identified below, and the person/financial institution identified below is **not** on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

Dear CUSTOMER,

PRIMEX is pleased to offer CUSTOMER our Statement of Qualifications.

PRIMEX is a full-service organization with over 165 full time staff. Our experienced staff of project managers, engineers, programmers, and certified technicians offers years of system integration and process knowledge across all facets of water/wastewater applications.

Thank you for considering our submittal. PRIMEX has a proven track record of success, so please do not hesitate to contact any or all of the references included in this document. Please let us know if we can answer any questions..

Respectfully yours,

Todd R. Holtz Vice President of Sales – Engineered Products PRIMEX

CORPORATE OVERVIEW

SJE[®] dba as PRIMEX[®] is a 100% employee owned company providing engineered control solutions for water and wastewater clients. SJE has more than 400 employee- owners across 7 locations in the United States and China. We are the largest provider of complete control solutions for water applications in North America. PRIMEX offers a broad end-to-end suite of products and services, including: standard pump control panels; full-featured, web-hosted icontrol[®] SCADA solutions; and highly complex systems integration projects for municipal, industrial, and commercial applications.

PRIMEX.

With thousands of installations across North America, nearly a century of expertise, and hundreds of combined years of engineering and electrical controls experience, PRIMEX provides control solutions using the latest technology to deliver energy efficient and cost effective systems carrying UL 508A, UL 698A and UL NNNY and other approvals as specified.

Multiple design and production facilities located across North America ensure PRIMEX customers seamless, high-quality water control solutions. PRIMEX team members are fully engaged in every project. Fast turnaround of quotes and submittals help us serve the needs of our customers. PRIMEX Product Development is continually designing innovative solutions to meet the growing demands of the water control industry.

Primary Services

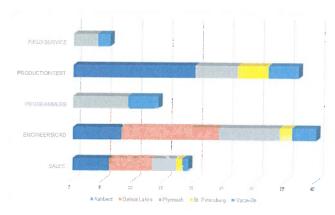

SJE continues to grow in both size and abilities in order to anticipate and meet our client expectations. Our clients rely on PRIMEX to provide comprehensive services to address the variety of issues that can arise during each project. Our team's Primary Services include:

- Design Engineering
- Project Management
- Programming & Networking Services
- Panel Fabrication
- System Testing & Commissioning
- Field Services

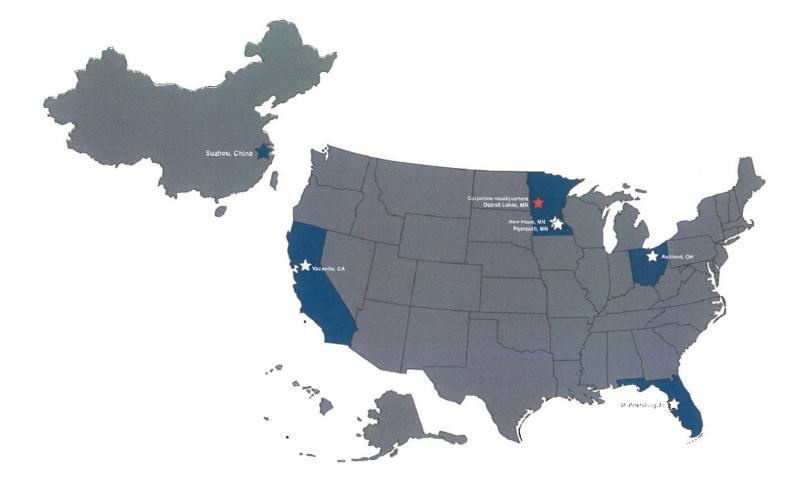

Employee Skill Sets

Most of our team members have complementing primary and secondary skill sets. Having this flexibility allows us to meet challenging schedules and react to emergency service needs.

PRIMEX.

PRIMARY SERVICES

Design Engineering

As one of the most experienced teams in the water/ wastewater controls industry, we expertly take your project from concept to implementation.

Highly Qualified Engineering Team

Our staff of 40 engineers — including registered Professional Engineers (PE) in control systems, electrical engineering, and mechanical engineering — have the experience to provide innovative and practical solutions. Our team also includes a nationwide network of authorized engineer representatives, service providers, and partners.

Detail-Oriented Project Planning

Thoroughly planning a project from its inception results in sound design, optimal performance, and reliable system integration. Our staff of controls engineers partner with our clients on every detail to ensure reliable, robust, and flexible custom control systems. This area of expertise consists of the following components:

- P&I diagrams
- Loop drawings
- · Power and control panel layout wiring
- · Floor plans and electrical layouts
- Service entrance, switchgear, and motor control center design
- Computer network one lines
- Detailed LAN/WAN connection diagrams
- · Pneumatic and hydraulic diagrams
- I/O schematics
- Equipment submittals
- · Testing and training submittals
- · Operation and maintenance manuals

PRIMARY SERVICES

Project Management

Complex projects involve multiple parties that provide pieces of the overall implementation. Project Managers are trained to oversee timelines, resolve issues, negotiate conflicting priorities, and manage the budget. Most importantly, they provide ongoing communication to all parties that have a vested interest. The following areas are where our Project Managers really stand out.

Extensive Experience

At PRIMEX, our Project Managers have extensive experience managing projects for the water/wastewater segment. They understand that a project's success depends on having the social skills and focus to both accomplish the project objectives and maximize value to our clients.

Exceptional Skills

The desired outcome of any project is to complete objectives on time and within budget. We go above and beyond by managing the entire process, from pre-project planning, to dealing with unexpected issues, to leveraging the team for innovative solutions, to consistent and effective communication. These skills are what set PRIMEX Project Managers apart from all others.

Unrivaled Industry Knowledge

We understand the water/wastewater industry and controls inside and out. With a PRIMEX project, you will not have to train our Project Managers in the industry — it's what we do.

Programming & Network Services

PRIMEX provides a full staff of programmers and network specialists experienced in many areas of process control. All are certified in multiple PLC, HMI, reporting and database application software packages. PRIMEX utilizes certified software standards to meet the requirements of your specific project.

Top-Notch Security

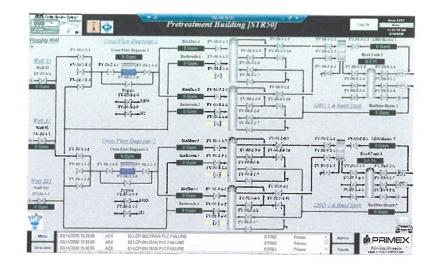

With ever-growing security concerns, PRIMEX can address your network hardware and software to provide you with the latest in protection:

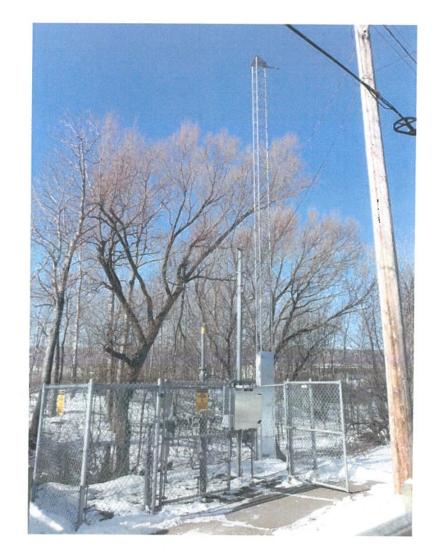

- Requirements analysis
- PLC Programming
- SCADA/HMI programing
- Design/development testing
- Database-driven reporting
- Network architecture design
- Security evaluations
- Firewall hardware and software setup
- Custom software/driver development

Expert Radio Telemetry Services

For over 45 years, PRIMEX has provided a full range of radio telemetry services for Water Distribution, Wastewater Conveyance, and Industrial Controls applications. This area of expertise consists of the following components:

- Computer modeled radio path studies
- Radio path verification studies and site surveys
- Telephony
- · Radio, Cellular, Broadband
- Fiber optic

Fabrication

PRIMEX has four full-service panel assembly facilities across the nation that can handle any assembly project from beginning to end.

Latest Drafting & Labeling Methods

Our assembly technicians use the latest in computer-generated drafting and labeling methods to deliver our customers wellorganized, easy-to-maintain control panels that look good and operate accurately.

Numerous Certifications

Panels are built and listed in-house to one or more of the following certifications:

- UL 508A Listing for Industrial Control Panels
- UL 698A Listing for Enclosed Industrial Control Panels with Circuit Extensions to a Hazardous Location
- UL NNNY Listing for Class 1, Division 1
 and 2 Locations

Highly Skilled Staff

Whether your project involves power wiring, simple relay logic, or the latest in softwarecontrolled automation, our assembly technicians and engineers have the necessary skills to produce control panels that you will be proud to own and pleased to operate.

PRIMARY SERVICES

System Testing & Commissioning

Every panel and project PRIMEX produces undergoes a rigorous checkout procedure before shipping to ensure that the system performs as expected, per project requirements. Our standardized approach includes:

- · Nameplate and labeling review
- · System mechanical and wiring integrity
- System power-up and electrical integrity
- Software/programming loading
- System functional test and description of operations review
- Telemetry and communications review

Additional Services

We encourage customer factory acceptance tests whenever possible to help ensure smooth implementation and start-ups. Also, our project managers, programmers, and service technicians involved throughout the project will perform commissioning and start-up services.

PRIMEX.

PRIMARY SERVICES

Field Service

PRIMEX provides a full staff of qualified service technicians experienced in process control. From system and instrumentation checkout to startup, our staff is capable of starting up a system and providing the necessary training to operators. This area of expertise consists of the following components:

- System startup
- Instrumentation calibration and commissioning
- System troubleshooting
- System training
- System documentation

Custom Service Contracts

PRIMEX performs routine services and offers ServiceFlex, an on-demand service and parts maintenance plan. These service contracts are developed to answer to the project requirements and the customers' specific needs. PRIMEX performs these services throughout the United States.

Remote Support

PRIMEX supports all areas of expertise with continued service for our customers, ranging from instrument calibration to IT software diagnostics. PRIMEX offers remote support as part of our project support agreements, which allows the engineer to go online with the client's facility control system and aid them in troubleshooting.

Obtain Parts Quickly

PRIMEX also stocks common parts at the factory and has strong relationships with various manufactures, allowing us to obtain critical parts quickly.

KEY PERSONNEL

Angela O'Connor, Operations Manager – Vacaville, CA

Expertise:

- Project Management
- System Integration
- Panel Fabrication
- Customer Service

Experience Summary:

Mrs. O'Connor began working with PRIMEX (previously MCC Control Systems) in 2013. In her current role as Operations Manager, Mrs. O'Connor is responsible for Production, Engineering, Field Service and Project Management. Mrs. O'Connor has PMP Certification and prior to joining PRIMEX managed numerous projects and programs in the fields of energy efficiency and renewable energy for residential and commercial applications.

Credentials:

M.B.A. Project Management, University of Phoenix

B.S. Business, University of Phoenix

PMP Certification, Project Management Institute

Key Projects:

Fresno, CA – Southeast Surface WTP

Roles: Project Manager/Operations Manager Client: City of Fresno, CA Application: Surface Water Treatment Dates: March 2016 - May 2019

Sunol, CA – SVWTP Powdered Activated Carbon System

Roles: Project Manager/Operations Manager Client: San Francisco Public Utility Commission Application: Powdered Activated Carbon System Dates: May 2018 - August 2019

Manteca, CA - Wells 28 & 29 Equipping Project

Roles: Project Manager/Operations Manager Client: City of Manteca Application: Well Sites Dates: April 2018 - November 2019

Hollister, CA - West Hills Water Treatment Project

Roles: Project Manager/Operations Manager Client: San Benito County Water District Application: Water Treatment Plant Dates: September 2015 – June 2018

Castro Valley, CA - Eden Reservoir Replacement

Roles: Project Manager/Operations Manager Client: East Bay Municipal Utility District Application: Tank Reservoir Dates: March 2015 – October 2018

KEY PERSONNEL

Todd Rammell – Design Engineering Manager

Expertise:

- Project Management
- Design & Engineering
- PLC, OIP & SCADA Programming
- Estimating

Experience Summary:

Mr. Rammell has 40+ years of OEM/System Integration experience in Production, Field Service, Estimating, PLC & SCADA Programming, Design, Engineering and Project Management. Mr. Rammell joined PRIMEX in 2013 and as the Design Engineering Manager has overall responsibility for project design from start to finish. These projects are comprised of electrical, instrumentation, switchgear, motor control centers, control panels, PLCs, RTUs, and various SCADA systems.

Credentials:

Associates of Arts Degree, Diablo Valley College

Key Projects: San Joaquin Electric – Echowater Flow Equalization Role: Project Manager Client: San Joaquin Electric Company Application: Wastewater Treatment Dates: August 2015 – December 2019

Phoenix Electric Company -

Chemical System Relocation

Role: Project Manager Client: Phoenix Electric Company Application: Wastewater Treatment Dates: August 2014 – April 2018

Redwood City Marina PS 17 & 19

Role: Project Manager Client: Blocka Construction Application: Pump Station Dates: January 2016 - 2018

Ebmud Moyers & RD 24 #2

Role: Project Manager Client: Fidel Electric Application: Pump Station Dates: July 2015 – August 2017

Redding Layton Lift Station

Role: Designer & Project Manager Client: Bullert Electrical Application: Lift Station Dates: April 2016 – July 2017

Joseph Martell, Software Engineering Manager

Expertise:

- PLC Programming
- SCADA/HMI Programming & Design
- Database Design & SQL
- Electrical Troubleshooting
- Panel Design

Experience Summary:

Mr. Martell has 20+ years in the Industrial Automation industry with 10 years focused on the water/ wastewater industry. Mr. Martell joined MCC in 2011 and moved to PRIMEX as part of the acquisition in 2015. Mr. Martell has a great deal of experience with SCADA and PLC applications and has applied these skills on large and complex water/wastewater treatment processes.

Role: Lead Software Engineer Client: San Benito County Water District Application: Potable Water Treatment Plant Dates: October 2016 – September 2018 PRIMEX.

Max Hanson, Senior Software Engineer

Expertise:

- Electrical & Control Systems Design
- PLC Programming
- Operator Interface Programming
- SCADA System Programming

Experience Summary:

Mr. Hanson has 20+ years of experience in the design, construction, startup, and operation of industrial control systems. Mr. Hanson has been employed with PRIMEX (previously MCC Control Systems) since 1996 as a Senior Software Engineer. Prior to joining PRIMEX, Mr. Hanson spent time with the consulting engineering firm EA Engineering, Sciences and Technology, and with Osmonics/Vaponics – a water purification systems OEM. Mr. Hanson has extensive experience in water treatment, ranging from ultrapure water for semiconductor and pharmaceutical production to municipal water and wastewater treatment to groundwater remediation systems.
